Dear Parent,

### **NEW! STEMpath Program and Your Child**

We are very excited about our new STEMpath program, happening this summer, and the chance to engage your child on this unique opportunity.

Science North is launching a new program entitled STEMpath. STEMpath is a program designed for students entering grades 7 – 9. The content is aligned with Ontario’s Science and technology curriculum, and the primary objective of STEMpath is to inspire youth with STEM experiences and learning, and the potential careers that can be part of their future

This is a two-week summer camp experience where your child will explore hands-on content on science, technology and trades. This program is funded and is thus offered to you at no cost. Science North can also provide transportation to and from the camp should that be a benefit to your child. The camp day will begin at 9:30 a.m. and end at 3:30 p.m. The location of the camp is still to be finalized, however we are hoping to have either Canadore College or Nipissing University as our site.

We are running 3 cohorts (two-weeks each) in North Bay with the following schedule:

- Cohort #1 – Week of July 12 and Week of July 19
- Cohort #2 – Week of July 26 and Week of August 3
- Cohort #3 – Week of August 9 and August 16

For each cohort, space is limited. We encourage you to register early to guarantee a spot for your child. The field trips and exposure to trades and careers will broaden your child’s world as they continue on their education journey.

You can register your child directly on the Science North website by selecting the community of North Bay and the date/cohort of choice.

Should you have any questions about the program and/or the registration, please don't hesitate to contact me by email at [leduc@sciencenorth.ca](mailto:leduc@sciencenorth.ca) or by telephone at 705-522-3701 ext. 295.

We thank you for your time and attention and look forward to seeing your child in our new STEMpath camp this summer.
